

Edgumbe's new online learning resource, Edgumbe Health Online, provides high quality Educational Supervision training that is both flexible in delivery and cost effective.

### Edgumbe's renowned Educational Supervision training

...can now be delivered as a blended learning programme. This consists of five hours of online learning (broken into bite sized modules) followed by a half day face-to-face workshop. The workshop builds on the online content concentrating on skill development and provides updates on new thinking from the GMC, the Colleges and other bodies involved in training doctors. Educational Supervisors spend less time away from their day-to-day work and access the online learning when it suits them.

### What does it cover?

Working with Deaneries, the programme design and content have been developed by our own subject matter experts who are consistently praised above all others for the quality of their delivery, their professionalism and their effectiveness.

The online content is easy to access. It is interactive and engaging and includes essential information, process guides, case studies, tests and 'try it out' activities. Modules include:

- conducting educational appraisal
- understanding learning
- asking the right questions
- giving feedback
- setting objectives
- guiding careers
- managing trainees in need of support

The workshop that follows builds on the online learning so that by the end of the programme an educational supervisor will be equipped to manage an educational appraisal; write objectives and develop a PDP; support a trainee in difficulty and advise a trainee who needs support making a career decision.

### CPD certified

The content is certified as quality CPD material by the CPD Certification Service and Doctors can claim five external CPD points on completion which is evidenced in a downloadable certificate. Trusts can be provided with the Doctors' learning record and quiz scores if required.

### The costs

Online licences                £75 plus VAT per head (with access for one year)  
Face to face workshop    £900 plus VAT (for up to 12 delegates)
